A little smile.
A thoughtful idea.

Cindy's everyday ideas, taking shape.

Crab Tab Counter LLC / CBennyLi

Cindy chose the colours, the smiling red crab and the name Crab. The character took shape through co-creation with AI.

She notices. She makes a start.

Cindy sees the little things in everyday life and tries making them better. She sketches, buys materials and makes samples. Benny connects those beginnings with engineering, sample development and manufacturing, while Cindy remains at the heart of the story.

Three everyday beginnings

A clearer count

Crab Tab Counter

An early physical tool helps count and separate an already determined quantity. The next stage explores dedicated devices and AI counting support, reminders and human review.

Early prototype. AI and InnoSpire visual-assistance integration under exploration.

A gentler journey

Travel ideas

She explored a blanket strap to reduce slipping during sleep, alongside a separate headband or cap idea. She sent samples to Hong Kong for Benny to help develop.

Handmade samples; further development.

Shade, her way

Everyday comfort

She disliked the look of exterior car-shade solutions. Cindy explored an inside-the-car alternative, bought fabric and made a sample.

Handmade exploration; not a validated or available product.

Her next chapter, in her own name.

InstantReady

AI Powering Old School

New value, in your own name.

InstantReady helps an idea find a practical next step. HSIMC supports engineering, samples, manufacturing coordination and agreed acceptance.

Cynthia (Cindy)
Founder & hands-on creator

Benny Liao
Product realisation & global operations

Make a gift. Share a smile.

A cup, a card, a useful idea. Start with artwork, personalisation or a sample.

Counting support does not diagnose, decide doses or prove ingestion. Final checks stay with people; data permissions and handling are agreed before use.

一个微笑，一份用心。

让 Cindy 的生活想法，逐步成为现实。

Crab Tab Counter LLC / CBennyLi

Cindy 选择了颜色、微笑的红蟹与 Crab 这个名字，并与 AI 一起把这个形象发展出来。

看见生活里的细节，就动手开始。

Cindy 留意日常的小细节，也愿意亲手试一试。她会画草图、买材料、做样品。Benny 把这些开始接到工程、样品开发与制造能力上，让想法继续向前，也让 Cindy 始终成为故事的中心。

三项从生活里开始的创作

更清楚的计数
Crab Tab Counter

从早期实物辅助工具开始，帮助计数和分开已经确定的份量。下一阶段探索专用设备与 AI 计数辅助、提醒和人工复核。

已有早期原型；AI 与 InnoSpire 视觉辅助整合仍在探索。

旅途中的小改变
旅行创作

她探索给飞行毛毯加挂绳，希望睡着时不容易滑落，同时发展独立的头环或帽子想法。她把样品寄到香港，与 Benny 接续开发。

已有手作样品；继续开发。

按自己的心意遮阳
日常舒适

她不喜欢市场上外部遮阳方案的外观，便探索车内使用的方案，买来布料，亲手做样品。

手作探索；尚非已验证或可购买的产品。

以她自己的名字，写下一章。

InstantReady

AI Powering Old School
New value, in your own name.

InstantReady 帮助想法找到实际的下一步。HSIMC 支持工程、样品开发、制造协调与约定验收。

Cynthia（Cindy）
创办人 · 动手创作者

Benny Liao（廖炎）
产品落地 · 全球运营

创作一份礼物，送出一个微笑。

一个杯子、一张卡片、一份实用想法。从图案、个性化设计或样品开始。
